More details in the following pages.

In the letter below, we will address the key questions that we think investors might have. Please refer to Annexure A for the key financial and operating metrics data.

#### Q1. Can you give us the usual summary on growth and profitability in Q2FY25?

**Akshant:** GOV growth across our B2C businesses improved to 55% YoY (14% QoQ) at INR 17,670 crore in Q2FY25. On a like-for-like basis (excluding the impact of the acquisition of Paytm's entertainment ticketing business) GOV growth was 53% YoY (13% QoQ).

- Food delivery GOV grew 21% YoY (5% QoQ)
- Quick commerce GOV grew 122% YoY (25% QoQ), and
- Going-out GOV grew 171% YoY (46% QoQ); like-for-like GOV grew 139% YoY (29% QoQ)

Our B2B business Hyperpure's Revenue grew 98% YoY (22% QoQ).

Consolidated Adjusted Revenue grew 58% YoY (13% QoQ) to INR 5,127 crore, broadly in line with GOV growth.

On the profitability front, consolidated Adjusted EBITDA increased by INR 289 crore YoY to INR 330 crore in Q2FY25 driven by improvement in margins across all our businesses.

# Q2. In Blinkit, the store count has almost doubled in the past one year. How is the performance of the new stores vs the old ones?

Albinder: The best metric to measure relative performance of stores is to compare the GOV per day per store. When we serve our customers well in an area, it translates into more GOV from the same store. New stores are now reaching ~INR 7 lakh of GOV per day in the first full quarter post launch (at which level they reach Contribution break-even). As the table shows, these stores continue growing every quarter after that as well.

| GOV per day per store (INR lakh) |                         |                                 |  |  |  |  |  |

### Q3. Why are margins not improving despite an increase in GOV per day per store?

**Akshant:** While most of our stores today are profitable with expanding margins, we are not seeing margin expansion at aggregate level at this moment because of the investments we are making towards scaling our infrastructure. This includes not just the stores that we are adding, but also the back-end large warehouses. For example, in Q2FY25, we added 152 net new stores and 7 warehouses. Since new stores and warehouses take a few months to ramp-up, they end up being margin dilutive in the short term.

# Q4. Food delivery continues to deliver 20%+ YoY GOV growth as per your past guidance and margins are steady. Anything to watch out for?

Akshant: Nothing new. The business remains steady and continues to grow well.

# Q5. When can we expect the launch of the new District app for the Going-out business and what are the immediate priorities here?

**Deepinder:** The new app should be live in the next four weeks. At this point, we are focused on making sure we do a good job at migrating the business from Zomato and Paytm platforms to the new District app

#### Q6. Can you share an update on the cash balance at the end of Q2FY25?

**Akshant:** Our cash balance reduced by INR 1,726 crore as compared to the previous quarter on account of the deal consideration (of INR 2,014 crore) for the acquisition of Paytm's entertainment ticketing business.

# Q7. Why raise additional capital given the strong cash position and improving profitability?

**Deepinder:** Zomato's consolidated annualised (quarterly\*4) Adjusted Revenue has grown 4x in a period of about three years - from ~INR 4,640 crore at the time of our IPO in July 2021 to INR 20,508 crore now (Q2FY25 annualised). In the same time period, our cash balance has reduced from ~INR 14,400 crore to about INR 10,800 crore (mainly on account of funding past quick commerce losses and some equity investments and acquisitions). While the business is now generating cash (vis-a-vis a loss making business at the time of IPO), we believe that we need to enhance our cash balance given the competitive landscape and the much larger scale of our business today. We believe that capital by itself does not give anyone the right to win (and that service quality is the key determinant of success), but we want to ensure that we are on a level playing field with our competitors, who continue to raise additional capital.

We would like to reiterate that (a) the quick commerce business continues to operate at near Adjusted EBITDA break-even (b) our food delivery business margins continue to remain steady and (c) there is also no plan for any minority investments or acquisition. The fund raise is meant to strengthen our balance sheet at this point.

### **Q8. Any ESG updates?**

**Deepinder:** No significant update this quarter.

### Q9. Anything else you would like to add?

**Deepinder:** That's it for now.

<sup>1)</sup> Provision for income tax has been created on other income (primarily being treasury income) post adjustment of unabsorbed depreciation permitted under the Income Tax Act. No provision is created on business income since that is being set off against the carried forward losses from the past years.

<sup>2)</sup> There could be some totalling anomalies in the numbers displayed above due to the impact of rounding off.

#### Use of non-GAAP financial measures

To supplement our financial information presented in accordance with IND AS, we consider certain financial measures that are not prepared in accordance with IND AS, including Adjusted Revenue and Adjusted EBITDA. We use these financial measures in conjunction with IND AS measures as part of our overall assessment of our performance to evaluate the effectiveness of our business strategies and to communicate with our board of directors concerning our business and financial performance. We believe these non-GAAP financial measures provide useful information to investors about our business and financial performance, enhance their overall understanding of our past performance and future prospects, and allow for greater transparency with respect to metrics used by our management in their financial and operational decision making. We are presenting these non-GAAP financial measures to assist our investors and because we believe that these non-GAAP financial measures provide an additional tool for investors to use in comparing results of operations of our business over multiple periods. Information given also includes information related to material subsidiaries.

Non-GAAP measures used by us are defined below:

- Adjusted Revenue = Consolidated revenue from operations as per financials (+) actual customer
  delivery charges in the food delivery business (net of any discounts, including free delivery
  discounts on account of Zomato Gold program) (+) platform fee paid in the food delivery business
  (that is not already included in reported revenue from operations)
- Adjusted EBITDA = Consolidated EBITDA (+) share-based payment expense (-) rental paid for the period pertaining to 'Ind AS 116 leases'
- EBITDA = Profit/loss as per financials excluding (i) tax expense (ii) other income (iii) depreciation and amortization expense (iv) finance cost and (v) exceptional items

These metrics have certain limitations and hence should be considered in addition to, not as substitutes for, or in isolation from, measures prepared in accordance with IND AS.

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of Parent's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

- 4. The Statement includes the results of the following entities as mentioned in Annexure 1.
- 5. Based on our review conducted and procedures performed as stated in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.
