More details in the following pages.

In the letter below, we will address the key questions that we think investors might have. Please refer to Annexure A for the key financial and operating metrics data.

### Q1. Can you summarise the key outcomes on growth and profitability in Q4FY24?

**Akshant:** GOV growth across our B2C businesses (food delivery, quick commerce and going-out) accelerated to 51% YoY (5% QoQ) to INR 13,536 crore.

- Food delivery GOV grew 28% YoY (-0.6% QoQ)
- Quick commerce GOV grew 97% YoY (14% QoQ), and
- Going-out GOV grew 207% YoY (25% QoQ)

Our B2B business Hyperpure's revenue grew 99% YoY (11% QoQ).

Consolidated Adjusted Revenue growth accelerated to 61% YoY (6% QoQ) to INR 3,873 crore.

On the profitability front, consolidated Adjusted EBITDA was INR 194 crore and improved by INR 369 crore as compared to the same quarter last year. Quick commerce business turned Adjusted EBITDA profitable in the month of March and Hyperpure losses also reduced meaningfully.

# Q2. Let's start with quick commerce. Now that the breakeven milestone is behind us, how should we think about growth vs profitability from hereon?

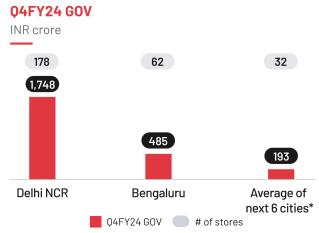

**Albinder:** One of the key vectors for growth for us right now is store expansion. In Q4FY24, we added 75 net new stores taking our total store count to 526. For comparison, this is more than the number of stores we added in the three preceding quarters cumulatively. Including this cost of expansion, we turned Adjusted EBITDA positive in the month of March 2024. In the current quarter (Q1FY25), we expect to add another 100 stores. At this point, we are aiming to get to 1,000 stores by the end of FY25.

With this aggressive store expansion planned (almost 2x store count in 12 months), the overall Adjusted EBITDA in our business is likely to hover around zero for the next few quarters. In steady state, we expect a 4-5% Adjusted EBITDA margin (as a % of GOV).

# Q3. Are these new stores coming-up largely in the top cities? Any particular region/ city where the expansion is more focused?

**Albinder:** While we have a presence in 26 cities, the focus from an expansion standpoint is the top eight cities in India. Of the new stores that we opened in Q4FY24, 80% are in these top eight cities.

We are significantly underpenetrated in the top cities. Our second largest city (by GOV) Bengaluru is less than 30% of Delhi NCR's GOV (our largest market), with a similar gap in store count. The job for us over the next few quarters is to get Bengaluru and other large cities like Mumbai and Hyderabad to the penetration of Delhi NCR, both in terms of store footprint and GOV. This alone will lead to  $\sim 4x$  increase in our GOV.

\*Next 6 cities include Ahmedabad, Chennai, Hyderabad, Kolkata, Mumbai, and Pune

While the other cities catch-up, even Delhi NCR itself is

growing at 7% QoQ driven by addition of new stores and growth in demand from existing stores. In addition to scaling up the existing store network and use cases, we will be adding more use cases so that the Blinkit platform is even more useful in the everyday lives of our customers.

Expansion beyond the top eight cities is more experimental in nature to test the depth of the market and so far most of our stores in these smaller cities are doing well. We plan to continue opening more stores in a measured way in the smaller cities.

### 04. What is the mantra to success across so many cities and demographics?

**Albinder:** In our case, we obsess about making our service reliable. Our investments (intellectual and financial) in the business are over-indexed to making our service more and more reliable. Reliability means a) availability of products at all times and b) quick and predictable delivery times.

In the month of March 2024, our average delivery time was 12.5 minutes. Besides delivering quickly,  $\sim$ 75% of our orders were delivered within two minutes of the promised time we showed to our customers and our accuracy on fulfilling items to customers was 99%+. This meant our service was fast, reliable and stood up to the promise we made to our customers. High quality of service results in higher customer willingness to pay us a delivery fee thereby leading to better economics. Almost 100% of our orders in March 2024 had a non-zero delivery fee with an average delivery fee per order of INR 20 (not including orders from new customers where we offer a one time free delivery).

We believe that a business built on the back of great service quality is much tougher (and hence more defensible) than just offering lower prices (usually through unsustainable subsidies). We plan to stick to making our service even more reliable and loved for our customers. And just like today, we will strive to maintain an edge over competition for the quality and innovation that we stand for.

# Q5. Deepinder, in less than two years since the acquisition, Blinkit has become a larger shareholder value driver than the food delivery business. Isn't that incredible?

**Deepinder:** We are just grateful that the bet that we took on Blinkit worked out just fine and we are not at a point where Akshant and I are getting fired for an expensive acquisition gone wrong. We are also grateful to our Board, for believing in the distant bet we were taking at that time, and helping us bring it all together quickly over the last few quarters.

Honestly, we really could not have imagined the current state of all four of our businesses – food delivery, Blinkit, Going-out and Hyperpure. I think the team has executed phenomenally well over the last couple of years, and continues to stay (more or less) focused with their ears to the ground.

While we are happy to be where we are today but also equally scared. It feels like we have lost the right to screw up, or make mistakes. Our journey in the last two years has, in so many ways, increased the expectations our stakeholders have from us and we will try our best to live up to them.

### Q6. So where to, from here? Any new businesses you are excited about?

**Deepinder:** I don't think we have the time and bandwidth to be excited about, or think of any new business at the moment. Our plates are so full with the four businesses that we have that we look at any other opportunity with the lens of "can we somehow avoid doing this", rather than "wow, this looks exciting".

We have only always started a business to protect/ grow something that we already have, with a singular goal – survive. Even when we acquired Blinkit, we outlined that one of the key reasons to acquire the business was to defend the food delivery business, because a well entrenched quick commerce player could pose an easy threat to the food delivery business in the long term.

I believe the key to building an organisation which lasts is to not aim for size (and let it be a by-product), but to aim for survival. As Simon Sinek said in his book "The Infinite Game" – all you should strive for is to stay in the game, and you have to stay in the game for long enough to win. But then, the game is never really over. Only the players keep changing.

Our internal name for our organisation (Zomato + Blinkit + Hyperpure + Going-out) is called Eternal. But, Eternal can never be the state of an organisation, because, the moment you think that an organisation is going to last forever, that's the day it starts dying. Ironically, the only way to ensure that an organisation lives forever, is to forever remain in the paranoia that we will/must die.

# Q7. Food delivery GOV growth continues to be strong at 28% YoY despite the softness in the overall restaurant industry. What is driving that?

**Deepinder:** I think customers value the convenience and predictability layer Zomato has built on top of the services offered by restaurants, which is why the growth of Zomato is a tad bit higher than that of the restaurant industry. We believe that we can continue to grow faster than the overall restaurant industry (and therefore power a significant part of the growth of the restaurant industry) if we continue to innovate using our customer-first principles, while creating value for all our other stakeholders – our restaurant partners, and our delivery partners.

# Q8. What are the components of this 28% YoY GOV growth? How much of it is driven by AOV increase, MTC increase and frequency increase?

**Rakesh:** GOV growth is a function of AOV growth and Order growth. Order growth is in-turn a function of transacting customer growth and order frequency growth.

In Q4FY24, the 28% YoY GOV growth was driven by 5% YoY AOV growth and 23% YoY Order growth. And the 23% YoY Order growth was a result of 14% YoY growth in average monthly transacting customers and 7% YoY growth in average monthly order frequency.

# Q9. Can you share a similar break-up of the components driving the margin increase over the last year?

**Rakesh:** Adjusted EBITDA margin has improved by 2.1 percentage points over the past four quarters. The key drivers of this improvement were (a) higher average order value, (b) improvement in take rate and ad monetization, (c) introduction of platform fee and (d) cost efficiencies. Together, these factors more than compensated for the lower customer delivery fee on account of the free delivery benefit on Gold orders.

## Q10. We understand that there is a proposal to create a new ESOP pool. Can you share more details about that?

**Akshant:** Yes, subject to shareholders' approval, we are proposing to create an additional ESOP pool of 2% of our outstanding share capital on a fully diluted basis.

ESOPs are important to help build a culture of long-term thinking and innovation and create a founder mindset' amongst senior employees, which ultimately drives the right outcomes for long-term shareholder value creation. Also, in people-dependent businesses like ours, where great execution and constant innovation are the only determinants of survival, ESOPs are a great way to drive the high-performance culture that we thrive on.

We will continue to follow our earlier format of ESOPs with face value as the strike price; vesting will be linked to time and performance conditions (details of which will follow in the postal ballot notice for shareholders' approval). This new ESOP pool should be sufficient for us for at least the next five years.

We look forward to getting support from our shareholders here.

# Q11. The ESOP charges in the P&L increased in Q4FY24 - what led to that and how should we think of these charges going forward?

**Akshant:** The total ESOP charge for Q4FY24 was INR 161 crore as compared to INR 122 crore for Q3FY24. We expect the ESOP charge to increase further in FY25 on account of grant of ESOPs to the Blinkit leadership team and senior employees.

At an overall level, our total employee expense (including cash expense and non-cash ESOP charge) as a % of Adjusted Revenue has reduced from 29% in FY22 to 12% in FY24, and despite the expected increase in both the ESOP charge and the cash employee expense, we expect this ratio to continue trending downwards in FY25 and beyond.

Also, just to be clear, the creation of the new ESOP pool mentioned above by itself will not lead to any increase in ESOP charge. ESOP charge is a non-cash expense and is booked only when the ESOPs are granted to employees.

### Q12. Any ESG updates?

**Deepinder:** Firstly, our progress on the ESG front last year resulted in our ESG rating improving from 'medium risk' to 'low risk' by one of the leading global agencies – Sustainalytics. We are proud to share that we now have the best ESG rating amongst major global food delivery companies across the world. We hope to continue to improve this rating with progress on our ambitious Net Zero goal to achieve net zero emissions across our food delivery value chain by 2033.

Secondly, the 'first-responder training program' that we launched last quarter is seeing an enthusiastic response from the delivery partners on our platform. In just three months since launch, we have trained 20,000+ delivery partners across multiple cities who are now capable of performing first-aid and CPR in case of any on-road casualties. Delivery partners are voluntarily registering for this training program as they understand the importance of timely first-aid which can make all the difference in saving a life.

Finally, we have been building a proprietary network of 650+ on-ground weather stations (largest private infrastructure of this kind in the country in our view) that provides precise and real-time data on key weather parameters such as temperature, wind speed, rainfall, etc. This network was created by us to help us make the right business decisions and serve our customers better. We have come to realise that this data holds significant potential in unlocking weather use cases for enterprise and research institutes and boost the productivity of our economy. As a Zomato Giveback, we have made this data freely accessible to anyone who wishes to leverage it, through an API available on weatherunion.com.

THE END

### Annexure A - Quarterly disclosures

Please note that from Q4FY24 onwards, we have changed the definition of Adjusted Revenue to include the entire amount of platform fee paid by the customer in the food delivery business. Until Q3FY24, Adjusted Revenue included only the net platform fee (platform fee received from customer less platform funded subsidies offered to the customer), as required under Indian accounting standard Ind AS 115. Accordingly, Q2FY24 and Q3FY24 Adjusted Revenue numbers have also been updated to reflect this change (there was no platform fee prior to Q2FY24).

### Use of non-GAAP financial measures

To supplement our financial information presented in accordance with IND AS, we consider certain financial measures that are not prepared in accordance with IND AS, including Adjusted Revenue and Adjusted EBITDA. We use these financial measures in conjunction with IND AS measures as part of our overall assessment of our performance to evaluate the effectiveness of our business strategies and to communicate with our board of directors concerning our business and financial performance. We believe these non-GAAP financial measures provide useful information to investors about our business and financial performance, enhance their overall understanding of our past performance and future prospects, and allow for greater transparency with respect to metrics used by our management in their financial and operational decision making. We are presenting these non-GAAP financial measures to assist our investors and because we believe that these non-GAAP financial measures provide an additional tool for investors to use in comparing results of operations of our business over multiple periods. Information given also includes information related to material subsidiaries.

Non-GAAP measures used by us are defined below:

- Adjusted Revenue = Consolidated revenue from operations as per financials (+) actual customer
  delivery charges in the food delivery business (net of any discounts, including free delivery
  discounts on account of Zomato Gold program) (+) platform fee paid in the food delivery business
  (that is not already included in reported revenue from operations)
- Adjusted EBITDA = Consolidated EBITDA (+) share-based payment expense (-) rental paid for the period pertaining to 'Ind AS 116 leases'
- EBITDA = Profit/loss as per financials excluding (i) tax expense (ii) other income (iii) depreciation and amortization expense (iv) finance cost and (v) exceptional items

These metrics have certain limitations and hence should be considered in addition to, not as substitutes for, or in isolation from, measures prepared in accordance with IND AS.

In preparing the Consolidated Financial Results, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's Responsibilities**

### (a) Auditor's Responsibilities for audit of the Consolidated Financial Results for the quarter and year ended March 31, 2024.

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Results for the year ended March 31, 2024 as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Consolidated Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual Consolidated Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors.
- Evaluate the appropriateness and reasonableness of disclosures made by the Board of Directors in terms of the requirements specified under Regulation 33 of the Listing Regulations.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the half and evidence obtained up to the date of our auditor's report. However, future events

NA

Chartered Accountants

or conditions may cause the Group and its associate to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the annual Consolidated Financial Results, including the disclosures, and whether the annual Consolidated Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
- Perform procedures in accordance with the circular issued by the SEBI under Regulation 33(8) of the Listing Regulations to the extent applicable.
- Obtain sufficient appropriate audit evidence regarding the Annual Consolidated Financial Results of the entities within the Group and its associate to express an opinion on the Annual Consolidated Financial Results. We are responsible for the direction, supervision and performance of the audit of financial information of entities included in the Annual Consolidated Financial Results of which we are the independent auditors. For the entities included in the Annual Consolidated Financial Results, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Annual Consolidated Financial Results that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Results may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the annual Consolidated Financial Results.

We communicate with those charged with governance of the Parent and such other entities included in the Consolidated Financial Results of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### (b) Review of the Consolidated Financial Results for the quarter ended March 31, 2024

We conducted our review of the Consolidated Financial Results for the quarter ended March 31, 2024 in accordance with the Standard on Review Engagements ("SRE") 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the ICAI. A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope that an audit conducted in accordance with SAs specified under section 143(10) of the Act and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

5 During the previous year ended March 31, 2023, the Board of Directors of the Company on June 24, 2022 had approved acquisition of 33,018 (thirty three thousand and eighteen) equity shares of Blink Commerce Private Limited ("BCPL") (formerly known as Grofers India Private Limited) for a total purchase consideration of INR 4,448 crores at a price of INR 13,46,986 01 per equity share by issuance and allotment of 62,85,30,012 (sixty two crores eighty five lakhs thirty thousand and twelve) fully paid-up equity shares of the Company having face value of INR 1/- (Indian Rupee One) each at a price of INR 70.76 per equity share which was the price determined in accordance with chapter V of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("SEBI ICDR Regulations"), for a consideration other than cash (for discharge of entire purchase consideration) from the shareholders of BCPL

On August 10, 2022, the Company completed the above acquisition by issuing 62,85,30,012 fully paid-up equity shares of the Company having face value of INR 1/- (Indian Rupee One) for 91 04% ownership interest. The same was accounted using the share price of the Company as on the acquisition date of INR 55.45 per equity share which amounted to INR 3,485 crores. Total consideration of INR 3,828 crores includes INR 3,485 crores for which shares were issued as mentioned above and INR 343 crores of fair value of existing ownership interest of 8 96% in BCPL as on date of acquisition The purchase price allocation based on management's estimates and the fair values of the same are as follows

| Particulars                    | Amount (INR crores) |  |  |
|--------------------------------|---------------------|--|--|
| Intangible assets              |                     |  |  |

| Other intangible assets        | 144                 |  |  |
| Deferred tax liability         | (293)               |  |  |
| Cash and bank balances         | 403                 |  |  |
| Other net assets / (liability) | (955)               |  |  |
| Goodwill                       | 3,507               |  |  |
| Total purchase consideration   | 3,828               |  |  |

Useful lives are estimated to be 1 year for customer relationships and 5 years for rest of the intangible assets

The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill. The primary items that generated this goodwill are the value of the estimated synergies and entering into quick commerce neither of which qualify as an intangible asset. Goodwill is not tax-deductible

Additionally, as on August 10, 2022, Zomato Hyperpure Private Limited, material subsidiary of the Company had acquired the warehousing and ancillary services business ("Warehousing division") of Hands on Trades Private Limited ("HOTPL", fellow subsidiary of BCPL until August 9, 2022), for an aggregate consideration of INR 61 crores paid in eash. The purchase price of INR 61 crores was allocated to Net Assets of INR 61 crores and hence no goodwill is recognised

- 6 In December 2023, the Company received Show Cause Notices (SCNs) from the GST authorities requiring the Company to show cause why a tax liability of INR 420 crores along with the interest and penalty for the period from October 29, 2019 to March 31, 2022 should not be demanded and recovered. The alleged amount is calculated on the delivery charges collected by the Company from the end user on behalf of the delivery partners. The Company, supported by the external independent expert's advice, is of the view that it has a strong case on merits
- 7 The above results for the year ended March 31, 2024 are not comparable with the year ended March 31, 2023 results, due to the facts mentioned in Note 5
- 8 Zomato Payment Private Limited (ZPPL) (a Subsidiary of the Company) has decided to voluntarily surrender the certificate of authorization obtained by the ZPPL from the Reserve Bank of India ("RBI") to operate as an online payment aggregator under the Payment and Settlements Systems Act, 2007 Further, ZPPL has also decided to voluntarily surrender its application with the RBI (for which it previously received in-principle authorization) to operate as an issuer of pre-paid payment instruments, under the Payment and Settlement Systems Act, 2007 and the Master Direction on Prepaid Payment Instruments However, the other operations of ZPPL will continue.
- 9 The figures of the fourth quarter are the balancing figures between audited figures in respect of the full financial year and published year to date figures upto the third quarter of the relevant financial year Also, the figures upto the end of third quarter were only reviewed and not subjected to audit

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Results for the year ended March 31, 2024 as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Standalone Financial Results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Annual Standalone Financial Results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Company's internal control.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual Standalone Financial Results, including the disclosures, and whether the Standalone Financial Results represent the underlying transactions and events in a manner that achieves fair presentation.
